Wells Jet Blue

Slim Tower Style Air Purifier

Slim Tower-style Design

Allows the device to be placed close to walls and maximise the use of space.

Purify with H14 HEPA Filter

Removes 99.997% of ultra-fine dust particles

Using H14 HEPA filter

Triple smart sensor system

Fine dust / light / odour sensors

More efficient use of space

Slim tower-type design and smart function

High - Performance Sensor

Conveniently monitor the air quality through the performance sensor.

Micro Dust Sensor

Measures indoor air quality in real-time to keep the air inside your home perfectly clean at all times.

Odour Sensor

Measures daily gases and total volatile organic compounds (TVOCs).

Light Sensor

Switches mode depending on the brightness of the room.

Air Quality Indicator

Detects dust and odours (gases) to understand the air quality in the room.

Easy-to-use Controls

Features the device's main functions and gives the user easy access.

4 - Step Filtration

99.997% complete removal of ultra-fine dust particles $0.3\mu\text{m}$ with strengthened hygiene through the addition of H14 Zero Clear HEPA filter.

Pre Filter

Ultra-fine
Dust Filter

Deodorisation
Filter

Zero Clear HEPA
(H14) Filter

Step 1

Eliminates large particles like human hair, pet hair and lint.

Step 2

Removes tiny dust and pollen in the air

Step 3

Eliminates bad odours, gases and pollutants (TVOCs)

Step 4

Eliminates ultra-fine dust and nano-particles in the air

Product Specification

Basic Specifications	
Product	Wells Jet Blue
Model	AL315AWA
Clean Area	51.9m ²
Installation	Stand type
Size (WxDxH)	420mm x 237mm x 723mm
Weight	11kg
Performance and Additional Functions	
Filter	Pre Filter → Ultra-fine Dust Filter → Deodorisation Filter → Zero Clear HEPA(H14) Filter
Sensor	Dust / Odour / Lighting
Clean Status Light	4 Levels (Good → Very Bad), 4 colours
Airflow Mode	3 Levels
Operation Mode	Auto / Sleep / Turbo
Schedule Function	2-hour / 4-hour / 8-hour
Energy Usage	
Power Consumption	56W
Energy Efficiency	3rd Grade
