

생활 맞춤 솔루션

**wells**  
Singapore

# Wells Tornado

All Around Space Purifier

# Tornado Suction System

Wells' unique patented technology creates powerful suction to clean a large amount of contaminated air at once.

## Double Cone Structure

Generates powerful rotating air flow for 18% faster intake on harmful substances

Height of extremely contaminated air

# 17° Slope Ventilation

Faster and wider air purification with the optimum, 17-degree slope ventilation technology. Enjoy air purification with no blind spots.

30% improvement in purification speed

Perfect circulation and purification solution

It creates clean indoor spaces quickly

It creates optimum air purification efficiency

Prevents the intake of surrounding contaminated air

# Convenient and Visible Display

Easily monitor air quality, adjust speed, and manage silent mode settings.

10 minute quick purification with *speed* mode when there is heavy contamination

*Smart* mode that checks the contamination status

*Silent* mode that is quiet yet powerful

## 4 Display Colours of Air Quality

## Moving Wheels

Convenient Installation and effortless indoor mobility.

# 7 - Step Filter System

99.999% complete removal of ultra fine dust ( $0.01\mu\text{m}$ ) with strengthened hygiene through the integration of pure copper (Cu) filter.

## Removes Contaminants

Odour

Sick House

Smog

Atopy

Dust

Fine & Ultra-fine Dust

Pre Filter

Ultra-fine Dust Filter

All Care (Cu) Filter

Step 1

Large dust particle removal

Step 2

Removes tiny dust and pollen in the air

Step 3

Odour Removal

Step 4

Sick house syndrome causatives removal

Step 5

Smog causing substance removal

Step 6

Atopy causing substance removal

Step 7

Fine dust & ultra-fine dust removal
